PROJECT PITCH

HANDOUT IS A CHARITY DECENTRALIZED CRYPTO-CURRENCY TOKEN.

OUR VISION

Unlike all of the meme-coins, Handout has real utility in the real world and helps support worthy causes. Yes! Gone are the days of investing in cryptocurrencies without any concrete action behind it!

OUR MISSION

Whilst in the midst of a global pandemic, where inequalities and poverty are on the rise, our motivated and trusted team wanted to mobilize our forces by giving a hand out to those who need it. Handout allows you to diversify your investments while acting for a cause that is close to your heart. On top of that you will be rewarded for it and become a great contributor of our community.

REASONS TO INVEST

01

SUPPORT CHARITIES

Handout has been built around the idea to help people by donating money that we had collected from the transaction fees that occur on our network. Supporting charity organizations is the cornerstone of our project and we will focus all of our energy on it. Thanks to you, the money you will invest in Handout will be used to help people or benefit our planet.

02

JUMP IN DEFI

By the time you are reading this, the cryptocurrency market is worth more than 2 trillion dollars. The DeFi sector has almost reached 100 Billion dollars of total market cap and has a lot more space to grow in the next couple of years. Decentralized Finance is a booming environment, with a lot of great profit opportunities for retail investors. We are still in the very beginning stages of crypto and this year's altcoin season just started, so it will be the perfect time for you to put some money on the table. This can be once-in-a-lifetime opportunity!

03

EARN REWARDS

Our ingenious farming frictionless rewards system allow you to earn free tokens from each buy or sell transaction. Tokens are credited in real time to your wallet, proportional to the numbers of tokens you hold! This juicy system will make you a loyal investor. The longer you hold the more tokens you earn.

04

JOIN OUR COMMUNITY

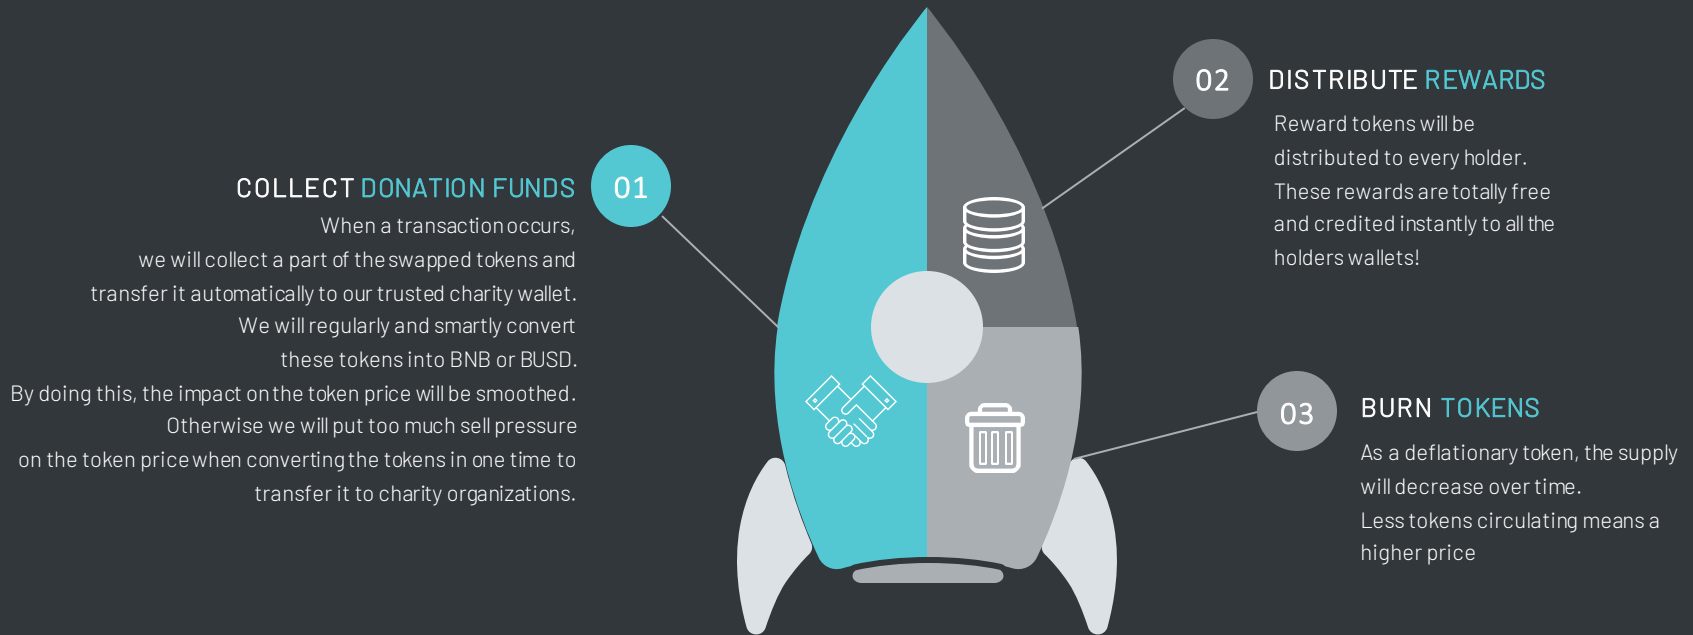

You will become an important member of our community. Indeed, you will be granted to vote for the organizations that we will support. In addition to that, you will take part in marketing expenses choices and contribute to the project growth by giving out your ideas. On top of that, you can participate in all our future actions, whether in real life (Handout Days : street donations), or online with our social medias challenges and contests.

HOW IT WORKS

Handout aims to provide a decentralized transaction network that operates on a blockchain. We chose Binance Smart Chain (BSC) to host our token.

This block chain is reliable, very fast and transactions fees are cheap. We have implemented an ingenious system of fee collection which occurs on each purchase or sell transaction of the token in way to :

This system is automated and directly implemented in our smart contract. We can't change any settings.

CHARITY DATA

In this section, we will take up some essential data on the charity market in France and in the USA. (data from 2019)

Total donated in 2019

UNITED STATES OF AMERICA
\$450 BILLION

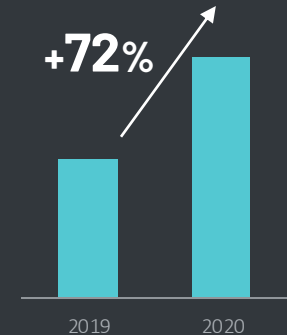

FRANCE
\$7,5 BILLION

Online vs. Offline Donation

Online donation growth

The USA is the No.1 donor country in the world in 2019.

Crypto donations are firmly established and allowed certain associations such as "Fidelity charitable" to collect \$28 million in 2020 (15 million more than in 2019)

CHARITY STRATEGY & PARTNERS

Our donation strategy

Handout aims to give to organizations according to the fees collected on our charity wallet. Transparency is very important for us and for our investors. We will communicate before the movement of the slightest dollar and every single transaction will be trackable, stored and certified by the blockchain.

A specific amount of harvest will be set and visible on our website. Once we reach it and we will transfer the funds in cryptocurrency to the organizations pre-selected in advance for this pot.

Community members will also be asked to select causes that are dear to them. We will try as much as possible to focus our attention on the biggest needs of the moment.

They said YES to us

We have already several validated partners and a wide variety of causes will be defended : covid, poverty, cancer, environment, refugees..

We will work with both large, well-known organizations and also smaller local ones.

A first charity donation will be made right after our presale. We will give 6% of the total liquidity collected to a charity of your choice, between our listed partners.

Handout Charity Donation dAPP

By the end of the year, Handout aims to develop its own Charity Crypto Donation platform in a way to connect directly donors to charity organizations. They will be able to find serenely and permanently donations throughout the year.

More detailed infos about our dApp will come in fourth quarter of the year.

Today's world needs a real re-balance and at your level, you can be part of that change.
